

Z-GROUP architects

Z-Group (CGA) has provided Architectural services for over 50 Higher Education projects in Colorado in the past 30 years in the capacities of Master Planning and Design of new buildings, Renovations and Additions. We have gained substantial experience in the specialized program elements of the specific needs of Higher Education facilities and are sensitive to the unique requirements of these projects and the special considerations that must be taken to insure that these buildings are well appointed to handle future technologies and growth.
